WELL INTO THE FUTURE.

Application Topics Continued...

- School Health Advisory Committee (SHAC) or school wellness team and its role to communicate health-related issues with staff members, students, and parents
- Coordinated School Health plan (CSH plan) and its role at the individual campus level
- Partnerships and school health programs that can assist in health education
- Types of health screening services offered to students
- Emergency preparedness (CPR and AED)
- Although there is an option to select "Don't Know", applicants are encouraged to find out as much information as possible to be selected.

Essay Questions

- The emphasis should be on a strong team that is responsible for addressing and improving health-related issues. Explain how your team works together to improve health and wellness.
- This is an opportunity to highlight how your school is promoting physical activity, nutrition, and health programs that impact students and community members.
- Healthy Zone awards schools with \$7,000 worth of funding and incentives during the 3-years of the program. Use this opportunity to explain how you plan to use the funding and recognition to build a culture of health.
